

802.11ac Repeater 1200Mbps

Chip: MTK7628AN+7612

Network protocol: IEEE802.11ac, IEEE802.11a, IEEE802.11b, IEEE802.11g, IEEE802.11n.

Speed: 2.4GHz is 300Mbps, 5.8GHz is 867Mbps

Three external omnidirectional 5dBi antennas one internal antenna

802.11n HT20 MCS 8 19.0 ±2dBm , HT40 MCS 8 17.0 ±2dBm

802.11ac HT80 MCS 8 15.0 ±2dBm

Features:

- Support router mode, client mode, relay mode, AP mode and multiple modes to choose.
- No external power adapter required
- Support 2.4GHz&5.8G wireless LAN, WPA2, WPA, WPA2-PSK AES, and WEP encryption
- Frequency: Support 2.4GHz & 5.8GHz at the same time, strong anti-interference ability, wireless transmission faster and more stable.
- Network interface: WAN interface: 1 and LAN interface: 1
- Working temperature: It can work normally in the environment of -25°C to 55°C.
- Professional smart WiFi relay, supports automatic WiFi hotspot scanning, and WiFi

hotspot memory function.

- Supports seven languages interface of WEB background, simple setting wizard software configuration
- It has good compatibility and is compatible with all WiFi devices such as smartphones, tablets, and notebooks.
- Button Reset button
- System indicator smart signal light
- Dimensions 100mm x 58mm x 38mm (L x W x H)
- Packing: AC1200 dual-band wireless repeater *1 Quick installation guide*1 RJ45 cable*1
- Packing size 113mm x 95mm x 89mm (L x W x H)
- Packing specification size 48cm x 39.7cm x 37.5cm (L x W x H) 64pcs/carton
